

Las Vegas FSDO FAASTeam presents:

Pilots and Medications & Update on Next Gen and General Aviation

Fatal GA accident toxicology reports finds prescription and over-the-counter medications in 80% of deceased airmen. NTSB and FAA have not cited drugs as casual factor in the accidents, questions remain regarding pilots' ability. Consult your AME about flying & meds. Speaker: Dr. John Dudek, board certified Urologist, former flight surgeon USAF, former FAA aviation medical examiner (AME). Current ATP AMEL, CFI airplane & helicopter, owner of a Cessna 180. Dr. Dudek is well qualified to answer your medical questions. NextGen & GA: moving to a system that gives pilots and controllers greater predictability and allows us to better and more safely manage the movement of aircraft. Speaker: Earl Jobson, an ATP with several type ratings, for USAF and flight inspection pilot and Air Traffic Controller, CFII

Directions: Grand Canyon Room in the terminal building of North Las Vegas Airport.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
